

TRACK N KNOW

TrackNKnow is a leading GPS system, designed and developed by ArnAmy, Inc, a US based IT company. Mission of TrackNKnow is to empower users with mobility features through accurate and efficient GPS solutions.

KEY FEATURES

AUTOMATED EVENT ALERTS

These days, it is crucial to check state of assets and their movements. This GPS software helps users to track and monitor their assets with automated event alerts.

GEOFENCING

Fencing allows setting location limits aka virtual perimeter so that can be monitored and tracked to avoid misuse and the fraud. These Geo-fences when crossed by an equipped vehicle or person can trigger a warning to the user or operator via SMS or email.

DEVICE MANAGEMENT

Device management is an industry term for the administration of devices. With 'TrackNKnow' one can control or manage GPS device by starting and stopping the vehicle. It also enables tracking a battery charging status, ignition on-off status and SOS.

DEVICE STATUS

Devices with active and inactive statuses can be managed by users by determining the states (Running, Stopped, Idle).

ANTITHEFT MODE

The TrackNKnow system has an anti-theft feature to stop fraud and misuse. An I-button is used to prevent unauthorized access to the vehicle.

VEHICLE IDENTIFICATION

TrackNKnow features an intuitive GUI/dashboard to identify a vehicle or set of vehicles based on various parameters.

TRIP RECORDER

TrackNKnow features a trip recording ability and allowing to play historical trips and viewing reports with details such as distance travelled, motion hours, stop hours, idle hours, speed limits, max speed counts during a trip.

RADAR VIEW

TrackNKnow provides a real time top angle view of all devices at a time on a single dashboard. The intuitive colour legends make it easy to identify vehicles statuses on dashboard.

EMERGENCY

TrackNKnow provides an efficient notification system empowering administrators and drivers to handle emergency situations.

PRICING

1-20 Devices \$6 / Devices/month	21-50 Devices \$5 / Devices/month	51-100 Devices \$4 / Devices/month	100+ Devices \$3 / Devices/month
